PRADEEP KUMAR S

Full-Stack (MERN), Agentic AI and Gen AI Developer

Saravanapatti, Coimbatore, India · +91-7010262389 · pradee.s.2611@gmail.com
https://linkedin.com/in/pradeep-kumar-selvam · https://github.com/pradee2611 · https://huggingface.co/Pradee26112001

PROFESSIONAL SUMMARY

Full-stack developer with 2+ years of experience designing and shipping production platforms on the MERN stack and Next.js, now extending that foundation into Generative AI and agentic systems. Specialises in API-first backends (500+ REST endpoints delivered, JWT authentication, a hiring-platform backend sustaining 600 concurrent users) and in RAG pipelines and LLM tooling built with LangChain, the Gemini API and FAISS. Holds the Databricks Certified Data Engineer Associate and Databricks Generative AI Engineer Associate credentials, plus Anthropic certificates across the Claude API, Claude Code, MCP, subagents and agent skills, with 10+ platforms delivered across startup acceleration, ed-tech and AI-first recruitment.

CORE TECHNICAL COMPETENCIES

Backend & API Development: Node.js · Express.js · REST APIs · GraphQL · JWT Auth · WebSockets
Frontend Engineering: React.js · Next.js · Redux Toolkit · Zustand · Tailwind CSS · Framer Motion · Three.js
Data Layer: MongoDB · Mongoose · PostgreSQL · Redis
Generative & Agentic AI: LangChain · OpenAI API · Gemini API · RAG
Cloud & Delivery: Docker · AWS · Vercel · Git · GitHub · Postman
Professional: Communication · Problem-solving · Time Management · Leadership

PROFESSIONAL EXPERIENCE

Software Associate · SNS Square, Coimbatore, India — Sep 2025 – Present

- Own full-stack features end to end within a 4-member engineering team, from API design and MongoDB data modelling through to React.js and Redux interfaces.
- Designed and integrated 500+ RESTful API endpoints and backend services powering dynamic, data-driven front-end experiences.
- Build responsive, reusable UI components and manage application state with React.js and Redux.js.
- Sustain code quality and delivery velocity through code reviews and agile ceremonies (sprint planning, stand-ups) on Git.

Technologies: React.js, Redux.js, Node.js, Express, MongoDB, Git

Junior Software Associate · SNS Square, Coimbatore, India — Jul 2024 – Sep 2025

- Delivered full-stack features end to end on the MERN stack, from MongoDB schema design through Express/Node.js APIs to the React.js UI.
- Implemented JWT-based authentication and MongoDB data integration to ship production-ready features.
- Built responsive, state-driven interfaces with React.js and Redux.js, translating design specs into reusable components.
- Worked in a collaborative, code-reviewed Git/GitHub workflow using Visual Studio.

Technologies: MERN Stack, React.js, Redux.js, Node.js, Express.js, MongoDB, Git, GitHub

SELECTED PROJECTS

Dragon Suite · AI Exam Prep & Placement Platform — https://www.1000dragons.ai/

- 20-module super app spanning exam prep, placement readiness and AI-driven candidate assessment.
- Delivered full-stack modules for students, recruiters and colleges.

Stack: React, Node.js, Express, MongoDB

HyrDragon · AI-First Hiring Platform — https://hyrdragon.digitaldiffuse.in/

- AI-first recruitment platform for automated skill matching, resume analysis and interview evaluation.
- Engineered the backend to sustain 600 concurrent users across coding tests, AI chatbot interviews and proctoring modules.

Stack: React, Node.js, Express, MongoDB, Python

Milai.ai · Career Upskilling — https://milai.ai/

- Learning and assessment platform for candidate upskilling.
- Developed skill-gap analysis, interview bots and coding challenge modules end to end.

Stack: React, Node.js, Express, MongoDB

Startzy · Startup Accelerator https://www.startzyai.com/

- Platform for startup acceleration, supporting funding workflows for early-stage founders.
- Built onboarding flows and funding modules end to end.

Stack: Next.js, Node.js, Express, MongoDB

JEE/NEET MCQ Generator · RAG-Powered Question Generation https://github.com/pradee2601/Question-Extraction

- AI application that generates JEE/NEET practice MCQs using Retrieval-Augmented Generation.
- Built OCR-based content ingestion and a FAISS-powered searchable knowledge base with the Gemini API.

Stack: Python, Streamlit, Gemini API, FAISS, Tesseract OCR

Additional projects: EdCom (Student Admission Portal), FoodAccess (Food Security Platform), Student Placement Predictor (ML Salary & Placement Predictor), Agentic AI Workshop (LangChain notebooks), Fullstack Playground and Learning Sandbox. Details and code at https://github.com/pradee2611.

CERTIFICATIONS

Databricks Certified Data Engineer Associate · Databricks May 2026
Generative AI Engineer Associate · Databricks Jan 2026
Model Context Protocol: Advanced Topics · Anthropic Jul 2026
Introduction to Subagents · Anthropic Jul 2026
Introduction to Model Context Protocol · Anthropic Jun 2026
Claude Code in Action · Anthropic Jun 2026
Building with the Claude API · Anthropic Jun 2026
Introduction to Agent Skills · Anthropic Jun 2026
AI Fluency: Framework & Foundations · Anthropic Jun 2026
Generative AI Applications & Python · HCL GUVI May 2025
Full Stack Web Development (MERN) · PrepInsta Feb 2024
IoT Fundamentals · NPTEL 2023
Enterprise Design Thinking Co-Creator & Practitioner · IBM Mar 2022

EDUCATION

Bachelor of Technology · SNS Institutions, Coimbatore, India 2021 – 2024
Diploma · Sri Ramakrishna Degree College (Autonomous), Coimbatore, India 2020
Secondary Education · Christus Rex Higher Secondary School, Ooty, India 2018
